# Student Guide for Using SafeAssign

SafeAssign is a plagiarism prevention tool that allows your instructor to check the originality of a homework submission. SafeAssign automatically conducts the check by comparing your assignment against a database of other assignment submissions.

Submit an assignment or test using SafeAssign in Blackboard Learn: Ultra Course View

Your instructor is using SafeAssign if you see *Originality Report enabled* in the *Details & Information* of your assignment or test.

Assignments and tests using SafeAssign in the Ultra Course View don't require you to take any extra steps when you're ready to submit your work. SafeAssign automatically checks your work, including attachments and text responses, for matches to published materials.

When you open an assignment, you're informed if your submission is set to be graded anonymously.

View SafeAssign submissions

SafeAssign starts processing your assignment or test as soon as you hit *Submit*. While the service analyzes your work, *Originality Report in progress* appears on the panel. SafeAssign creates an Originality Report for each part of your assignment or test, including text questions and attachments.

Your instructor decides whether you can see Originality Reports for your assignment attempt.

You can view the Originality Report before your instructor grades your attempt. Open the *Details & Information* panel and select *View Originality Report*. If your instructor allowed multiple attempts, SafeAssign analyzes all of your attempts separately. You can find the Originality Report for each attempt on the *Submission* panel.

Introduction to Sociology

Guest Speaker Review & Mini Quiz

Ashby Cooper

Final Grade
Submitted 10/30/17, 10:47 AM (EDT)

Pending

Dr. Thacker's thoughts were enlightening and maybe a bit controversial. Spend some time reviewing her presentation and weighing in. Add your name to your document filename and upload it here. Be sure to answer the questions below before you submit your work.

Question 1   -- / 10

What themes did Dr. Thacker touch on in her talk?

- A Feminist theory
- B Attribution
- C Ethnocentrism
- D Psychoanalysis

Question 2   -- / 50

In one sentence, describe Dr. Thacker's latest research. Your answer to this question and your attached review of the speaker will count for 50 points.

Your Answer
Dr. Thacker's research focused on how we as individuals perceive ourselves when put into cooperative groups with people very similar and very different to us.

SafeAssign Originality Report

✓ Low Risk

This attempt includes some quotes and a few common pieces of text that match external sources. Typically, no further analysis is required because there is sufficient originality.

Overall Text Matching
